Dana,

Per your request, attached are some draft talking points for the DDs meeting. I have put in discussion on the GKM investigations and reports, stopped work sites and the master list. This probably needs more work but thought I send the draft out as I will be in Denver Monday-Wednesday next week. Thanks!

Shahid, thanks for the response and insights.

## Deliberative Process/Ex. 5

Shahid, can you get started on this, and others, can you please weigh in?

I will try to pull out my notes from this discussion with Mathy and see if I am missing anything.

Thanks - Dana

Dana,

## Deliberative Process/Ex. 5

On your second point, I agree we need to huddle up and talk more on how best to address this question.

On your last point, the DOI made the following recommendations (Response in Red):

## Deliberative Process/Ex. 5

# Deliberative Process/Ex. 5

Our report directly noted this point in our recommendation and we have already implemented at Standard Mine where Tetra Tech provided an independent review of the site project plan.

Thanks and talk to you tomorrow.

Shahid Mahmud

**Subject:** FW: Mining Sites Report

Hi folks. Attached below is the note that the Administrator sent to Mathy in response to him sharing the mining sites update [on the 15 sites originally flagged for shutdown]. I have annotated in red my thoughts on how we might respond and/or who might respond. I would like to, later today, send this out more broadly after you folks have a chance to review.

To possibly help, I have attached the “mine stopped list” we sent up the chain on 10/16.

Thanks - Dana

Mathy – thanks for sending me the updates on where all our mine sites where a stoppage and review was called for. I have some follow up to ask of you.
